Subject: WOLF CULL BY AIR

Hello,

I find this so impractical and cruel - no guarantee that any direct kills happen...just maiming and animals dying in agony. Let natural balance take care of itself.. culling wolves to balance the caribou population.. then caribou population is excessive - the circle continues.

This is inhumane, a waste of money and resources and the least of our problems at this time..

Call it off permanently... end this insane, inept measure.

Will be surprised if I get other than a form letter response, but would sure appreciate a real one.

thank you
