**Re: Draft Multi-Strata Model Report – Bluenose-East Caribou Herd Joint Management Proposal**

Dear Mr. van der Wielen and Mr. Mandeville:

On December 15, 2015, the Tłı̄chǫ Government (TG) and Department of Environment & Natural Resources (ENR), Government of Northwest Territories submitted the “*Joint Proposal on Management Actions for Bluenose-East Caribou 2016-2019*” to the Wek'èezhì Renewable Resources Board (WRRB) outlining proposed management actions for the Bluenose-East Caribou Herd in Wek'èezhì. The Board opened the 2016 Bluenose-East Caribou Herd Proceeding on January 18, 2016.

During the Science Technical Session on March 17, 2016, ENR indicated that a draft report prepared by John Boulanger summarizing the multi-strata model, which was used to obtain a harvest risk for management zones in different seasons for different herds in 2012, may be available to share with the WRRB and other interested organizations.

**The WRRB requests that the draft multi-strata model report be provided by no later than 12:00 p.m. on March 31, 2016.** The report will be posted to the Public Registry: <http://wrrb.ca/public-information/public-registry>. If you have any questions, please contact our office at (867) 873-5740 or [jpellissey@wrrb.ca](mailto:jpellissey@wrrb.ca).

Sincerely,

A handwritten signature in blue ink that reads "J. Grant Pryzyk".

J. Grant Pryzyk  
Chair

Cc Hon. Wally Schumann, Minister, ENR
